

# **Patent Claim-to-Feature Mapping – US-12,375,324-B2**

This document maps implemented Synerex features to patent claims.

- Claim 1 – Network-wide current balancing → ECBS deployment + baseline sealing
- Claim 9 – Harmonic mitigation and stabilization → EM&V; + Tracking enforcement
- Claims 12–18 – Continuous verification → Tracking portal lineage enforcement

This mapping supports licensing, diligence, and infringement analysis.
